HRI DIRECTIVE 2

Race Conditions for Flat Handicaps

The conditions that shall apply for Flat Handicaps are laid out in HRI Directive 2:

i. Top Weight

- a. In Nursery handicaps the top weight at entry shall not be less than 9st 10lb or the top weight stipulated in the conditions of the race.
- b. In handicaps for three years old only, unless otherwise stipulated in the conditions of the race, the top weight at entry shall not be less than 9st 12lb (prior to 1st July) or 10st (on or after 1st July).
- c. In handicaps for three years old and upwards, the top weight at entry shall not be less than 10st or the top weight stipulated in the conditions of the race.

ii. Raising of the Weights

- a. In races for two years old only, unless otherwise stipulated in the conditions of the race, the top weight after declarations shall not be less than 9st 10lb.
- b. In all other races, if the highest weight remaining declared after the time for declarations to the HRI Racing Department is less than the maximum stipulated weight as defined in the conditions of the race and the lowest weight is less than 8st 4lb or the minimum stipulated weight as defined in the conditions of the race, then it shall be raised to the maximum stipulated weight and the weight given to the other horses remaining declared will be raised by an equal amount, except that if the weight adjustment is less at the bottom of the handicap than it is at the top then it shall be raised to 8st 4lb or the minimum stipulated weight and all the other horses remaining declared will be raised by an equal amount. In raising the weights, nothing will be done to alter the relativity of horses' weights as per the original handicap.
- c. In the event of the top weight declared being less than 9st 12lb, it shall be raised to that weight and all of the other horses declared shall be raised by an equal amount.
- d. All horses still handicapped below 8st 4lb or the minimum stipulated weight as defined in the conditions of the race shall be raised to that weight.

iii. Alternative Handicap

When there is provision in the conditions of a race for the weights to be raised in the event of the top weight being withdrawn on the day of a meeting and when there are horses remaining in the race weighted below the minimum weight to be carried in that race, following any raising of the weights, then the weights shall be re-calculated, omitting the top weight, to form an alternative handicap as follows:

The weight of the lowest weighted horse remaining in the race, prior to any raising of the weights, shall be raised to the minimum stipulated weight to be carried in that race and the weight of all other horses shall be raised by an equal amount provided such weight rise does not lead to the weight of the top weighted horse exceeding 9st 10lb or 9st 7lb in cases of handicaps confined to two year olds. When such circumstances arise then the race shall be re-calculated and the top weighted horse shall be raised to 9st 10lb, or 9st 7lb in cases of handicaps confined to two year olds, and the weight of all other horses shall be raised by an equal amount or to the minimum stipulated weight to be carried in the race

iv. Addition of Penalties

- a. Penalties incurred by winning after the calculation of the weights shall be added to the horse's weight as originally published before the raising of the weights in accordance with sub-sections (ii)(a) – (c) above.

HRI DIRECTIVE 3

Race Conditions for National Hunt Handicaps

The conditions that shall apply for National Hunt handicaps are laid out in HRI Directive 3:

i. Top Weight

- a. The top weight shall be 11st 12lb, unless otherwise stipulated in the conditions of the race.
- b. In races with a rating band of 140 or more or with no rating band, the top weight shall be 11st 10lb, unless otherwise stipulated in the conditions of the race, although when no top weight is stipulated the handicapper may at his discretion and in the fairest allocation of the weights increase the top weight beyond 11st 10lb.

ii. Raising of the Weights

- a. If the highest weight remaining declared after the time for declarations to the HRI Racing Department is less than 11st 12lb or, in the case of a race with no rating band or a rating band of 140 or more, is less than 11st 10lb or the maximum stipulated weight as defined in the conditions of the race and the lowest weight is less than 9st 10lb or the minimum stipulated weight as defined in the conditions of the race, then it shall be raised to 11st 12lb or, in the case of a race with no rating band or a rating band of 140 or more, to 11st 10lb or the maximum stipulated weight, and the weight given to the other horses remaining declared will be raised by an equal amount, except that if the weight adjustment is less at the bottom of the handicap than it is at the top then it shall be raised to 9st 10lb or the minimum stipulated weight and all the other horses remaining declared will be raised by an equal amount. In raising the weights, nothing will be done to alter the relativity of horses' weights as per the original handicap.
- b. In the event of the top weight declared being less than 11st 7lb, it shall be raised to that weight and all of the other horses declared shall be raised by an equal amount.
- c. All horses still handicapped below 9st 10lb or the minimum stipulated weight as defined in the conditions of the race shall be raised to that weight.

iii. Alternative Handicap

- a. When there is provision in the conditions of a race for the weights to be raised in the event of the top weight being withdrawn on the day of a meeting and when there are horses remaining in the race weighted below the minimum weight to be carried in that race, following any raising of the weights, then the weights shall be re-calculated, omitting the top weight, to form an alternative handicap as follows:

The weight of the lowest weighted horse remaining in the race, prior to any raising of the weights, shall be raised to the minimum stipulated weight to be carried in that race and the weight of all other horses shall be raised by an equal amount provided such weight rise does not lead to the weight of the top weighted horse exceeding 11st 7lbs. When such circumstances arise, then the race shall be re-calculated and the top weighted horse shall be raised to 11st 7lb and the weight of all other horses shall be raised by an equal amount or to the minimum stipulated weight to be carried in the race.

iv. Addition of Penalties

HRI DIRECTIVE 10

Elimination and Balloting out of Horses

Where the number of horses declared exceeds the number permitted to run in the race, HRI shall reduce the number of declared runners to the recommended limit by ballot or elimination in accordance with the criteria laid out in HRI Directive 10:

Horses with the lowest ballot/elimination numbers will be the first to get into a race.

In any of these circumstances, such horses will be moved to the bottom of the ballot list and will be the first to be balloted out in the order of their handicap rating, starting with the lowest rating. If it is necessary to ballot among horses of an equal handicap rating the ballot will be random.

b. In all other Flat Handicaps

By ballot among or elimination of the lowest weighted horses which are out of the handicap but before any penalties have been applied. By elimination first of the lowest weighted horses which are out of the handicap at time of entry but before any penalties have been applied. If it is necessary to ballot among horses of equal protection, such ballot will be random.

Protection from balloting/elimination will then operate in the following order (only performances up to the time of entry will be taken into account):-

1. Horses placed 1st or 2nd on their last run in a Hurdle race run in Ireland, on or subsequent to 1st January of the year previous to the current year.
2. Notwithstanding the above and in the interest of permitting as many horses as possible a reasonable opportunity to run in hurdle handicaps with a maximum rating band of 95 or less, horses will lose their provisional ballot status which:

- (a) are declared to run but not a reserve in any hurdle race scheduled to be run in Ireland on the same day as that fixed for the closing of declarations
- (b) since the time of entry for such race, have run in a hurdle race in Ireland without being placed 1st, 2nd or 3rd
- (c) since the time of entry for such race, have run more than once in a hurdle race in Ireland

In any of these circumstances, such horses will be moved to the bottom of the ballot list and will be the first to be balloted out in the order of their handicap rating, starting with the lowest rating. If it is necessary to ballot among horses of an equal handicap rating the ballot will be random.

c. In all early closing National Hunt Handicaps

By ballot among or elimination of the lowest weighted horses which are out of the handicap after any penalties have been applied at the final forfeit stage. If it is necessary to ballot among horses of equal protection, such ballot will be random

d. In all other National Hunt Handicaps

By ballot among or elimination of the lowest weighted horses which are out of the handicap but before any penalties have been applied. If this fails to reduce the number to the recommended limit a further ballot or elimination will take place among the remaining horses, with the elimination of the lowest rated horses but before any penalties have been applied. If it is necessary to ballot among horses of equal protection, such ballot will be random.

v. In all Pattern and Listed Races

a. Flat Races

By elimination of or ballot of those horses that have the lowest handicap ratings or if they do not qualify for an official rating have the lowest assessment made by the Handicapper so as to reduce the number of declared runners to the recommended limit. Horses which have not run will be eliminated first by random ballot.

b. Steeplechases

c. Hurdles

By elimination of or ballot of those horses that have the lowest hurdle handicap ratings or if they do not qualify for an official rating have the lowest assessment made by the Handicapper so as to reduce the number of declared runners to the recommended limit. If it is necessary to ballot among horses of equal protection, such ballot will be random. Horses which have not run will be eliminated first by random ballot.

vi. In all Certified Hunter Steeplechases

Protection from balloting/elimination will operate in the following order:-

1. Horses which have won a Certified Hunters Steeplechase.
2. Horses which were placed second, third or fourth in either of their last two completed Steeplechases in Ireland confined to Certified Hunters.
3. Horses which have won a Point to Point Steeplechase in Ireland on and from the commencement day of the two previous Point to Point seasons, the most number of wins in this period affording the greatest protection.

Note: When protection is equal, horses previously balloted/eliminated from a Steeplechase run under I.N.H.S. Rules, on or subsequent to January 1st of the year previous to the current year will be protected from balloting first, the latest ballot/elimination date at the time of the preliminary ballot stage affording greatest protection. If it is necessary to ballot among horses of equal protection, such ballot will be random. For the purposes of Section (vi) above 'pulled up' will be considered a completed run.

vii. Refund of Fees

Owners with horses balloted out or eliminated will not be charged any entrance, forfeit, declaration or bookage fees.

viii. Reserves

Where a race is the subject of a ballot or elimination, not more than three extra horses will be included as Reserves. The names of the Reserves will be published on the race card in order of priority.
